

Minimum Rules for all laboratories

1. Bags and coats

For hygienic reasons and to avoid contamination of bags and coats with harmful substances, no bags and nor coats must be brought into the laboratories. If the student has an office, bags and coats must be placed there. If not, students must have access to a wardrobe.

2. Lab coats

Lab coats must be worn from the very start of the laboratory work.

3. Open windows

Do not open windows in the laboratory with fume cupboards due to the ventilation in the room.

4. No food and drink in the laboratory

It is not allowed to store nor take any kind of food and drinks into the laboratory.

5. Window sills

For safety reasons, the window sills must be kept cleared if they are marked as an emergency exit. Make sure that large equipment is not placed in front of windows.

6. Music

If you want to listen to music with a headset at work, you must have one ear clear for safety reasons.
