

Danish public grants

Grant giver	Instrument	Limits	OH	Co-financing	Eligible costs	Notes	Link	
DFF	Individual postdoctoral fellowship.	No upper limit.	44%		VIP- and TAP-salary (both permanent and non-permanent staff), equipment and running costs. Use cost-prices for permanent staff. No technical and administrative assistance in FNU and FSS postdoc projects.	Costs for TAP-salary (only relevant for FTP) must be explained in the project description. DFF expects expenses for books, normal work PCs, general software and other general work tools to be covered by the hosting institutions' overhead. As from E2014 DFF does no longer support costs for access to and use of equipment, facilities, databases etc. which are already available at the hosting institutions. These facilities are expected to be made available at no extra cost for research projects that the institutions agree to host.		
	Research project 1.	1,8 Mkr., 3 years.	44%				Information	
	Research project 2.	1,8-4,5 Mkr., 4 years.	44%					
	Research project 3.	4,5-8,3 Mkr., 5 years (only FTP and FSE).	44%			VIP- and TAP-salary (both permanent and non-permanent staff), equipment and running costs. Use cost-prices for permanent staff.	Costs for TAP-salary must be explained in the project description. DFF expects expenses for books, normal work PCs, general software and other general work tools to be covered by the hosting institutions' overhead. As from E2014 DFF does no longer support costs for access to and use of equipment, facilities, databases etc. which are already available at the hosting institutions. These facilities are expected to be made available at no extra cost for research projects that the institutions agree to host. Public funds may not be used to support AU's contribution, but can be included as part of the total budget under "funding from other sources".	
	Sapere Aude, step 1.	Up to 0,5 Mkr.	44%					
	Sapere Aude, step 2.	4,9 Mkr., 4 years.	44%					
	Sapere Aude, step 3.	8,3 Mkr., 5 years.	44%					
MOBILEX.	2,5 Mkr., 2 years.	44%						
DG (DNRF)	Centres of Excellence.	60-120 Mkr., 6+4 years.	44%		As a general rule, a considerable co-financing from the university is expected. When making the contract, the framework of the co-financing and subsequent embedment will be negotiated.	Salary for PhD, PostDoc, visiting researchers and unnamed TAP, as well as running costs and equipment.	As a general rule, this grant does not cover salary for permanent staff, but it's possible to apply for a supplement for the center leader.	Information
EUDP	Projects.	No set limits. Will typically cover 2-3 years.	44%	15%		VIP- and TAP salary, equipment and running costs, as well as foreign services, consulting services (excl. VAT; see the section on VAT and tax), reporting, communication and capital expenditures.	Is not applicable for funding of normal IT-equipment, office supplies etc. There may be joint financing of projects from EUDP and other subsidy schemes, including EU grants. It is important that the total percentage subsidies is upheld - this is max. 85% for universities.	Information(DK)
GUDP	Network.	0,25-2 Mkr., 2 years.	44%	50%				
	Small projects.	0,25-2 Mkr., 4 years.	44%		Research: 0%. Development: 0%. Demonstration: 30%	VIP- and TAP salary for participants. External support (counselling and analysis). Other activities (materials, meetings, travels). Strictly necessary apparatus and other equipment. Other expenses (communication).	Study fees are not covered. No official demand for co-financing, but we advise to have 10%. As a general rule, project activities can only be co-financed by other national, public funds up to the maximal grant percentage for the type of activity and business applied for. Development and demonstration projects, which are covered by the specified categories (agricultural funds) by appendix 1 of the EC Treaty, can receive other public financing up to a 100% of the eligible expenses.	Information (DK)
	Large projects.	2-15 Mkr., 4 years.	44%		Research: 0%. Development: 0%. Demonstration: 30%			
DANIDA	Projects.	5-10 Mkr., 3-5 years.	44%		A maximum of 10 % can be demanded from public contributors. A considerable co-financing is expected from other participants, especially from innovation activities.	VIP- and TAP salary, visiting researchers, equipment, auditing and running costs (including expenses for dialogue- and cooperation travelling, meetings, information etc.).	Management is expected to be covered by the overhead.	Information
InnovationsFonden	Large scale projects.	5-30 Mkr., 2-5 years.	44%		A minimum of 10 % self-financing of own project costs is expected from public contributors. Innovationsfonden will max cover 75% of the total project costs.	VIP- and TAP-salary (both permanent and non-permanent staff), equipment and running costs. Use cost-prices for permanent staff.	If applied for TAP-salary and usage of existing infrastructure, these posts have to be specifically explained in the project description. Other public financed activities (like EU-grant, Industrial PhD's and Danish Council for Independent Research grants) cannot be part of the projects co-financing. Basic funds and contract funds are allowed though.	Information
	The Industrial PhD Programme.	3 years.	44%			17,000 DKK/month for the company in salary contribution. 360,000 (natural sciences)/252,000 (humanities) DKK (incl. OH) to the University.		Information
	Industrial Postdoc	1-3 years.	44%			150,000 DKK/year for project related running expenses. Companies will receive 22,000 DKK a month towards the salary of the postdoc and 2,500 DKK for project related expenses.	Public grants may not be used to support AU's contribution.	Information

Private grants							Link
Grant giver	Instrument	Limits	OH	Co-financing	Eligible costs	Notes	Link
Carlsbergfondet (The Carlsberg Foundation)	PostDoc/projects.	1-3 years.	0%	The grant covers salary for postdoc and a fixed amount for running costs. Expenses that go beyond that, is to be sought elsewhere or co-financed.	Fixed contribution for running expenses of 2000-4000 DKK/month for theoretical/experimental projects.	Does not support TAP-personnel.	
	Special research projects.	1-4 years.	0%	Expenses for PhD.	Project expenses such as: Salary for PhD, postdoc, equipment, running costs.	Does not support TAP-personnel. Funding to cover workload reductions in relation to assignments from which the researcher wishes to be exempt at his/her institution.	Information
	Apparatus.		0%	A considerable co-funding by the host institute is necessary.			
Villumfonden (The Villum Foundation)	Postdoc.	1-2 years.	5%	None (but obviously necessary, as the grant does not cover running expenses).	The grant always uses contractual/collectively agreed wages. Outgoing fellows also receive funds to various project-related costs for up to 50,000 DKK / year.		Information
	Postdoc Block Grants.	2 years.	5%	None (but obviously necessary, as the grant does not cover running expenses).	Salary for postdoc.	Applicant must be a senior researcher (min. Associate professor level) holding a permanent position at the host institution.	
	Projects.	2-6 Mkr., 3 years.	20% for specified administrative costs and 5% for unspecified OH.		VIP- and TAP salary, equipment and running costs. Unspecified OH up to 5% of the total budget. The grant allows for specific additional expenses within administration, if it is documentable that a project puts additional strain on the resources of the institute; this could be in regards to extra need for secretary hours, rent, IT-support, heating, fax, printers, etc. The additional OH cannot exceed 25% of the total budget.	Does not support salary for permanent VIPs.	Information
	Young Investigator Programme (Assistant professor-grant).	5 Mkr., 4 years.			Salary for PhD, Junior postdocs and TAP, expenses for equipment and running costs.	Salary for the applicant is not covered by the grant. Applicants who do not hold permanent tenure must be able to document that their employment is guaranteed for the duration of the project period.	Information
	Young Investigator Programme (Associate professor-grant).	7 Mkr., 5 years.		Salary for primary investigator.	Postdoc-, PhD- and TAP-salary, equipment and running costs.	Salary for the applicant is not covered by the grant.	
Lundbeck-Foundation (Health sciences)	Projects.	10 Mkr.	0%		PhD-fellowships (if they are part of a bigger project) include study fees. Project funding is given as salary for VIPs (i.e. postdocs), TAPs, running costs and to a lesser degree, equipment relevant for the project.	For research projects within the health and medical sciences. Does not support salary for permanent VIPs.	
	Lundbeckfond Fellowship.	10 Mkr., 5 years.	0%			For research projects within the health and medical sciences. Primary investigator can apply for his/her own salary, if not already in a permanent position with the institution.	Information
	Lundbeck Postdoc stipends.	700,000 DKK/year, 3 years.	0%		Salary for applicant and running costs.	For research projects within the health and medical sciences.	
	Lundbeck PhD stipends.	525,000 DKK/year, 3 years.	0%		Salary for PhD student, study fee and running costs.	For research projects within the health and medical sciences. Main applicant must be the supervisor, co-applicant is the future PhD student.	
Trygfonden (The Tryg Foundation)	Projects.	No set limits in amount or timeframe.	5%		VIP- and TAP salary, equipment, running costs and a fair amount for equipping a workplace for new employees.	Trygfonden prefers if the project also receives support from other foundations or one of the Science Councils.	Information
Novo Nordisk Fonden (The Novo Nordisk Foundation)	Hallas Møller Fellowship.	11 Mkr., 5 years (2,2 Mkr. pr. year).	0%		VIP- and TAP salary. Running costs up to 1,5 Mkr. a year.	2 fellowships are granted each year. An acceptance from the head of department is required.	Information
	Medical and natural science research - Denmark.	300-700,000 DKK/year, 3 years.	0%		VIP- and TAP salary, equipment and materials – including laboratory animals.	PhD salaries are not covered.	Information
	Exploratory pre seed grant.	100-500,000 DKK., 4-12 months.	0%		Project related costs, including salaries.	Salary for the applicant, as well as travel and conference fees are NOT covered by the grant.	Information
	Interdisciplinary Synergy Program.	DKK 5 Mkr./year, 3 years.	5%		VIP- and TAP salary, equipment and materials, travel, conferences and publication.	PhD salaries are not covered neither is salary for scientific staff holding a permanent position.	Information
	Biotechnology-based synthesis and production research.	0,25-1 Mkr./year, 3 years.	0%		Project related costs, including salaries.	Salary for the applicant is not covered by the grant.	Information
15. Juni Fonden	Research and education. Danish Nature and its flora and fauna. Hunting and nature interests.	No information.		Follow faculty guidelines which are currently 44%. New guidelines are in preparation.	Project related costs including salaries (see comment).	Study travels and conference participation are usually not covered by the grant. Research projects are in general expensive so the board will look at where they get most value for money.	Information
Augustinus Fonden	Support charity, social, human, scientific and cultural activities.	No information.	0%		Project related costs including salaries.		Information

H2020

Priority I - Excellent Science							
Marie Skłodowska Curie Actions	European Training Networks (ETN).	Standard rates corrected by country. 4 years.	1200 EUR/researcher month.			The budget is calculated on the basis of the number of "man-months" applied for. PhD study fee is covered.	Information
	European Industrial Doctorates (EID).	Standard rates corrected by country. 4 years.	1200 EUR/researcher month.				
	European Joint Doctorates (EJD).	Standard rates corrected by country. 4 years.	1200 EUR/researcher month.		Salaries, mobility costs, travel costs, research costs and management costs.		
	European Fellowship.	Standard rates corrected by country. 2 years.	650 EUR/researcher month to cover management and indirect costs.				
	Global Fellowship.	Standard rates corrected by country. 3 years.					
ERC	Starting Grant.	1,5 M EUR, 5 years.	25%			If applied for TAP-salary and usage of existing infrastructure, these posts have to be specifically explained in the project description.	Information
	Consolidator Grant.	2 M EUR, 5 years.	25%		VIP- and TAP salaries (both permanent and non-permanent staff), equipment and running costs. Use cost-prices for permanent staff.		
	Advanced Grant.	2,5 M EUR, 5 years.	25%				
	Proof of Concept.	0,15 M EUR, 18 months.	25%				
Future and Emerging Technologies (FET)	FET Open.		25%			If applied for TAP-salary and usage of existing infrastructure, these posts have to be specifically explained in the project description.	Information
	FET Proactive.	Varies from activity to activity.	25%		VIP- and TAP salaries (both permanent and non-permanent staff), equipment and running costs. Use cost-prices for permanent staff.		
	FET Flagships.		25%				
Research Infrastructures	Developing new world-class research infrastructures.		25%			If applied for TAP-salary and usage of existing infrastructure, these posts have to be specifically explained in the project description.	Information
	Integrating and opening research infrastructures of European interest.	Varies from activity to activity.	25%		VIP- and TAP salaries (both permanent and non-permanent staff), equipment and running costs. Use cost-prices for permanent staff.		
	e-Infrastructures.		25%				
	Support to innovation, human resources, policy and international cooperation.		25%				
Priority II - Industrial Leadership							
Leadership in Enabling and Industrial Technologies (LEIT)	ICT.		25%			If applied for TAP-salary and usage of existing infrastructure, these posts have to be specifically explained in the project description.	Information
	NMPB.	Varies from activity to activity.	25%		VIP- and TAP salaries (both permanent and non-permanent staff), equipment and running costs. Use cost-prices for permanent staff.		
	SPACE.		25%				
Priority III - Societal Challenges							
Societal challenge 1-7	Health.		25%			If applied for TAP-salary and usage of existing infrastructure, these posts have to be specifically explained in the project description.	Information
	Food Security and the Bioeconomy.		25%				
	Energy.		25%				
	Transport.	Varies from activity to activity.	25%		VIP- and TAP salaries (both permanent and non-permanent staff), equipment and running costs. Use cost-prices for permanent staff.		
	Climate.		25%				
	Inclusive, Innovative and Reflective Societies.		25%				
	Secure Societies.		25%
