

Max number of years after obtaining the PhD degree (PhD age)													
-1	1	2	3	4	5	6	7	8	9	10	11	12	cont.
Villum intern. postdoc*													
EMBO postdoc*											Postdoc grant		
Carlsberg International fellowship*											Career grant		
Carlsberg reintegration fellowship											Project grant		
DFF international postdoc*											Career grant (cont.)		
Lundbeck postdoc													
Danish cancer society postdoc									Often possible to apply for postdoc funding before thesis is complete				
NNF postdoc (research abroad)*													
NNF visiting scholar (specific locations)*													
IFD Industrial postdoc													
NNF postdoc Nordic region (plant science and biotech)										* Mobility requirement			
MSCA postdoc fellowship*													
				NNF Emerging Investigator							Career grant applications require prior approval from MBG's research committee		
				LEO foundation Dr Abildgaard fellowship									
				Lundbeck fellow									
				DFF Sapere Aude research leader									
				Villum Young Investigator									
				ERC starting grant									
				NNF NERD (only for Nat-Tech applications)									
				DFF Inge Lehmann Programme									
				Villum Experiment									
				Lundbeck Experiment									
				LEO foundation Research grants in open competition (dermatology)									
				DFF Research project 1 (also thematic calls)									
											ERC Consolidator grant (7-12 years post-PhD)		
											NNF Ascending Investigator (7-15 years post-PhD)		
Notes: The PhD age listed for each grant is the maximum number of years between obtaining the PhD degree and the deadline for the grant As an example, one can apply for a DFF international postdoc grant <b>up to 3 years</b> after obtaining a PhD degree Most foundations look at the PhD age at the application deadline, NNF postdoc grants use the PhD age at the starting date for the grant
